Subject Index

Abscess, prostatic, due to *C. albicans*, 282
Acquired immune deficiency syndrome, and aspergillosis, 828,
Acquired immune deficiency syndrome, related to transfusion, 1030
Acremonium strictum pulmonary infection, 653
Actinobacillus actinomycetemcomitans, as cause of endocarditis, 479
Actinomycosis, associated with *Capnocytophaga*, 654
Acyclovir
  and vidarabine, for HSV in vivo and in vitro, 757
  for recurrent HSV infection after marrow transplantation, 750
  po in immunocompromised children with VZV infection, 478
Adherence to bacteria to buccal cells of cigarette smokers, 122
Adverse effects of chlorpromazine on host defense, 477
Alveolar macrophages, influence of bacteria-antibiotic interactions on activity, 271
Aminoglycosides
  plasma level in gram-negative bacteremia, 443
  risk factors for auditory toxicity, 23
Amphotericin B
  and ketoconazole, treatment for pulmonary cryptococcosis, 650
  interaction with proteins and lipoproteins, 986
Anaerobic cocci, synergy in abscesses, 924
Anaerobic rods in nonspecific vaginosis, 801
Androgen synthesis from cortisol by *Clostridium*, 489
Antibiotic
  resistance in streptococci, localization to conjugative plasmids, 74
  therapy, single vs. combination in *P. aeruginosa* pneumonia, 980
Antibiotic-induced filaments of gram-negative bacilli, killing by PMNs, 719
Antibiotics
  class-specific to *N. meningitidis*, 387
Antibody
  in CSF and serum, relation in HSV encephalitis, 1025
  response
    in Lyme disease, 789
    to mumps virus, 813
    to rubella virus, detection by latex-agglutination, 459
  type-specific to HSV, detection by RIA, 964
Antigen
  detection in urine of patients infected with *B. fragilis*, 929
  skin-test for VZV, 501
Antigenic
  characteristics of rabies virus, 769
  variation in *N. gonorrhoeae*, 166
Argentine hemorrhagic fever, levels of interferon, 428
Aspergillosis in AIDS, 828
Aspirin, effect on neutrophil function, 413
Asymptomatic infection, rotaviral, 667, 675
Auditory toxicity
  gentamicin and tobramycin in pseudomonas endocarditis, 257
  risk factors with aminoglyosides, 23
Aztreonam and penicillin, lack of cross-reactivity in penicillin-allergic subjects, 16
B subunit–whole cell vaccine for cholera, 884
Bacille Calmette-Guérin, isolation after cancer chemotherapy, 476
Bacteremia and peritonitis caused by *Listeria*, treatment with sulfamethoxazole and trimethoprim, 820
Bacteria-antibiotic interactions, influence on alveolar macrophages, 271
Bactericidal activity
  indicator for treating endocarditis due to *S. aureus*, 904
  of neutrophils, cyclical abnormalities during menstruation, 413
  of PMNs on bacterial filaments, 719
Bacteriocin typing for *C. difficile*, 775
Bacteriophage typing for *C. difficile*, 775
Bacteroides fragilis, antigens in urine, 929
Bacteroides, synergy in abscesses, 924
Birds, zoonoses in, 123
Blood cells, infection by CMV, 207
Blood cultures, isolation of *S. pneumoniae*, 449
Botulism, infant, 482
Boutonneuse fever, vascular permeability, 1036

C3-cleavage in pleural empyema, 935
Campylobacter-induced enterocolitis, 874
Campylobacter jejuni
  culture techniques for isolation, 481
  plasmid analysis of infections, 279
Campylobacter-like organisms isolated from homosexual men, 58
Cancer, immunotherapy with BCG, 476
Cancer ward, endemic chickenpox, 829
Candida albicans
  adverse effects of chlorpromazine on host defense, 477
  as a cause of prostatic abscess, 282
  pulmonary clearance, 1020
Candida parapsilosis, bloodstream infection after parenteral nutrition, 98
Candidal pyelonephritis, detection by phosphorous-31 NMR, 648
Candidiasis, response to therapy, 284
Capnocytophaga associated with actinomycosis, 654
Capsids as vaccines for rotaviral diarrhea, 434
Capsule
  lack of in nontypable *H. influenzae*, 518
  of *N. meningitidis*, class-specific antibodies to, 387
Carriers of *S. typhi* in Santiago, 124
Caseinase-deficient *S. aureus*, 538
Catheters, adherence of coagulase-negative staphylococci, 116
Cellular immunity to mouse pneumonitis agent, 630
Cephalosporins, entry into lung, 264
Cervical colonization by *U. urealyticum* in pregnant women, 289
Chickenpox
  humoral response to VZV proteins, 741
  in a cancer ward, 829
Chitin precursors in *C. immitis*, inhibition of incorporation by PMNLs, 404
Chlamydia trachomatis
  and CMV, coinfection, 658
  irradiated, topical vaccine, 439

Chlamydial pneumonitis, serodiagnosis in infants, 598
Chlorpromazine, adverse effects on host defense, 477
Cholera
  mucosal immunity, effect of B subunit vaccine, 884
  toxin-blocking effects of a B subunit, 495
Cholera conference, summary, 1014
Cigarette smokers, adherence of bacteria to buccal cells, 122
Clindamycin, suppression of toxic shock–associated exotoxin, 471
Clostridium
  in fecal flora, conversion of cortisol to androgen, 489
  synergy in abscesses, 924
Clostridium difficile
  cytotoxin, inactivation by PMN myeloperoxidase, 215
  immunoassay for toxins A and B, 781
  typing with bacteriophage and bacteriocin, 775
Coagulase-deficient *S. aureus*, 538
Coccidioides immitis, chitin precursor incorporation, inhibition by PMNLs, 404
Coinfection
  with *C. trachomatis* and CMV, 658
  with *P. carinii* and CMV, 643
Colitis, *C. difficile* in hamsters, epidemiology, 775
Colonization
  by *H. influenzae* type b, 278
  by *U. urealyticum* in pregnant women, 289
Complement-dependent antibody to EBV, 763
Consecutive infection with HSV-1, and HSV-2, 655
Cortisol, conversion to androgen by clostridia, 489
Cryptococcal meningitis, treatment with flucytosone and ketoconazole, 584
Cryptococcal meningitis, treatment with keoconazole and amphotericin B, 650
Cyclophosphamide-treated mice, susceptibility to *L. pneumophila*, 1023
Cyclosporine, role in *P. carinii* pneumonia in renal-transplant recipients, 143
Cystic fibrosis
  antibodies to *P. aeruginosa* outer-membrane proteins, 220
  bacteriology of sputum, 283
  role of granulocyte protease and pseudomonas elastase, 523
Cytomegalovirus
  and *C. trachomatis*, coinfection, 658
  and *P. carinii*, coinfection, 643
  infection of blood cells, 207
  recurrent infection in renal-transplant patients, 277
  vaccination against transplacental transmission, 355
Cytotoxin of *C. difficile*, inactivation by PMN myeloperoxidase, 215

Delta agent in drug addicts and close contacts, 286
Dengue vaccine, reactogenicity and immunogenicity, 1005
Diagnosis, rapid viral, 299
Diagnostic tests for Lyme disease, 789
Diarrhea, rotaviral, prevention of, 434
Diphtheria-pertussis-tetanus vaccine, use with *H. influenzae* polysaccharide, 950
Drug addicts, infection by delta agent, 286
Drug resistance, transfer in gram-negative bacteria, 320
Duodenal string–capsule culture for diagnosing typhoid fever, 157

Editorial, speciation polemic, 661
Elastase, pseudomonas, role in cystic fibrosis, 523
ELISA for
  C. difficile toxins A and B, 781
  Giardia lamblia in stools, 90
  Lyme disease, 465
  mumps, 810, 813
Encephalitis, HSV-induced
  prevention by HSV vaccine, 973
  serum-CSF antibody titers, 1025
Endocarditis
  due to *A. actinomycetemcomitans* type C, 479
  due to *P. aeruginosa*, treatment of, 257
  due to *S. aureus*
    expression of resistance to β-lactams, 894
    laboratory tests for antibiotic usage, 904
  due to *S. xylosus*, 826
Endothelial cells, vascular, for growth of *R. rickettsii*, 201
Endotoxin, role in hepatocytolysis during hepatitis, 621
Enterocolitis due to *Campylobacter* in nursery, 874
Enterotoxin, heat-stable of *E. coli*, assay for, 83
Enterovirus 70, characterization of, 480
Epidemiology
  of *T. canis* infections, 591
  of *V. vulnificus* infections, 558
Epiglottitis due to *H. influenzae* type b, associated HLA types, 373
Epithelial cells, adherence of bacteria to in cigarette smokers, 122
Epizootic of raccoon rabies, antigenic analysis, 769
Epstein-Barr virus, complement-dependent antibody to, 763
Erythrocyte MNSs specificities and *H. influenzae* infections, 373
Erythromycin
  killing of PMNL-ingested *L. pneumophila*, 714
  uptake by PMNLs, 714
Escherichia coli
  assay for heat-stable enterotoxin, 83
  fimbriated, in urinary tract infections, 835
  inhibition of enterotoxin by pharmacological agents, 280
  role of K1 capsule in invasiveness, 184
Exotoxin in toxic-shock syndrome, clindamycin suppression of, 471

Fallopian tube, effect of *N. gonorrhoeae* peptidoglycan fragments on, 378
Fever, 339
Fimbriated *E. coli* in urinary tract infections, 835
Flucytosine plus ketoconazole for treatment of cryptococcal meningitis, 584
Frog virus 3–induced hepatitis, role of endogenous endotoxin, 621
Fusobacterium, synergy in abscesses, 924

Gammaglobulins in iv preparations, 511
Gastroenteritis, rotaviral, recent developments, 663
Genetic component, resistance to renal infection, 483
Genetic resistance to trypanosomiasis, 311
Genital infection, IgA antibody to HSV, 505
Gentamicin
  role in renal and auditory toxicity, 257

tissue concentrations in neonates, 474
Gentamicin complex, nephrotoxicity, 605
Giardia lamblia, ELISA for in stools, 90
Glomerulonephritis, suppression of reactivity to group A streptococci, 841
Glycolipid of *M. leprae*, IgM antibody to, 870
Gram-negative
baccili, killing of antibiotic-induced filaments by PMNs, 719
bacillary meningitis, moxalactam treatment of, 562
bacteremia, association with aminoglycoside levels, 443
bacteria, transfer of drug resistance, 320
Granulocyte–neutral protease, cleavage of C3 in pleural empyema, 935
Granulocytes, role in airway damage in cysytic fibrosis, 523

HLA specificities
and *H. influenzae* infections, 373
and poliomyelitis, 285
HLA-DR, monocyte surface expression and immunosuppression in tuberculosis, 31
Haemophilus influenzae
in experimental pneumonia, 728
nontypable
cause of recurrent meningitis, 656
lack of capsule, 518
type b
antibodies to polysaccharide, 1034
colonization by, 278
infection and HLA and MNSs specificities, 373
polysaccharide vaccine in infants, 950
Haemophilus species, tetracycline-resistance genes, 1028
Handicapped students, hepatitis B markers in, 796
Hemorrhagic fever with renal syndrome
antigenic relations of viruses, 472
immune adherence assay for, 67
two cases in Greece, 1011
virus in nonendemic area, 473
Hepatitis
due to frog virus 3, role of endotoxin, 621
non-A, non-B, nuclear particles in liver cells, 453
viral, lack of circulating interferon, 831
Hepatitis B virus
in institutions sharing students, 796
vaccination in elderly persons, 1019
virus, in foreign-born Chinese, 475
Hepatocytolysis during frog virus 3 infection, role of exotoxin, 621
Herpes simplex virus
acyclovir and vidarabine treatment, 757
efficacy of vaccine in preventing encephalitis, 973
immune response to after marrow transplantation, 750
infection in homosexual men, 1026
protection by transplacental transfer of immunity in neonatal infection of mice, 38
recurrent infection after marrow transplantation, 750
secretory IgA during genital infections, 505
type-specific antibodies by solid-phase RIA, 964
types 1 and 2, consecutive infection, 655
uncommon reinfection with, 645
vidarabine therapy for in immunocompromised host, 1
viral encephalitis, serum-CSF antibody titers, 1025
Hexamitiasis in monkey with immunodeficiency syndrome, 828
Homosexual men
herpesvirus infection in, 1026
immunologic abnormalities, 148
isolation of *Campylobacter*-like organisms from, 58
Hospital laundry, killing of bacteria by low-temperature washing, 48
Host factors in salmonellosis, 878
Human monoclonal antibodies, production by fusion of human lymphocytes and mouse myeloma cells, 43
Humoral immune response to VZV proteins, 741
Hybridoma antibodies, protection against *Streptococcus* infection, 363

IgA, secretory, to HSV during genital infection, 505
IgM to *M. leprae* glycolipid, 870
Immune adherence HA for agents of hemorrhagic fever with renal syndrome, 67, 472
Immune response
to *A. actinomycetemcomitans*, 479
to *T. gondii* after ingestion, 234
to topical, *C. trachomatis*, 439
Immunization to influenza virus and pneumococci, 817
Immunocompromised children, acyclovir for VZV infection, 478
Immunocompromised host, vidarabine therapy for HSV infection, 1
Immunodeficiency syndrome, hexamitiasis in a Macaque monkey, 828
Immunofluorescence, indirect, for Lyme disease, 465
Immunologic abnormalities in homosexual men, 148
Immunosuppression associated with tuberculosis with HLA-DR expression on monocyte surface, 31
Immunotherapy, isolation of BCG after use in cancer patients, 476
Infectious mononucleosis, complement-dependent antibodies to EBV, 763
Influenza
immunization survey, 817
vaccine
A/California/10/78 (H1N1) cold-adapted reassortant, 735, 816
A/Washington/897/80 (H3N2) cold-adapted reassortant, 814
virus
infection of macrophages, effect on interferon production and accessory cell function, 942
genetic stability of A/Ann Arbor/6/60 *ts* mutants, 194
origin of pandemic strains, 108
Interferon
absence during acute viral hepatitis, 831
hemorrhagic conjunctivitis, 822
human leukocyte (IFN-*a*), treatment and prophylaxis of acute hemorrhagic conjunctivitis, 822
in acute otitis media, 480
in Argentine hemorrhagic fever, 428
production by macrophages, effect of influenza virus infection, 942

Jackson, George Gee, an appreciation, 487

Junin virus, persistance in vivo, 1022

K1 capsule of *E. coli*, role in invasiveness, 184
Ketoconazole
  and amphotericin B, treatment of pulmonary cryptococcosis, 650
  plus flucytosine for treatment of cryptococcal meningitis, 584

β-Lactam antibodies
  for meningitis due to *S. pneumoniae*, 568
  resistance to in *S. aureus*, 894
Lassa fever, treatment with immune plasma and ribavirin, 420
Latex-agglutination for detection of rotavirus, 1021
Laundry, hospital, killing of bacteria by low-temperature washing, 48
Legionella micdadei in renal transplant recipients, 703
Legionella pneumonia, distribution of serogroups and species, 819
Legionella pneumophila
  in cyclophosphamide-treated mice, 1023
  in renal-transplant recipients, 703
  killing by erythromycin and PMNLs, 714
Legionnaires' disease, plasmids as markers for nosocomial outbreak, 251
Leukocyte interferon, treatment and prophylaxis of acute hemorrhagic conjunctivitis, 822
Lipopolysaccharide of *N. gonorrhoeae*
  electrophoretic and serological characterization, 544
  role in serum sensitivity, 175
Listeria bacteremia and peritonitis, treatment with sulfamethoxazole and trimethoprim, 820
Liver, non-A, non-B hepatitis nuclear particles, 453
Low-temperature washing, killing of bacteria in hospital laundries, 48
Lung, entry of cephalosporins, 264
Lyme disease
  diagnostic tests, 789
  ELISA and IFA, 465
Lymph-node biopsy, microbial cultures of, 162
Lysozyme activity, cyclical abnormalities during menstruation, 413

Macrophage accessory cell function, effect of influenza virus infection, 942
Macrophages
  alveolar, influence of bacteria-antibiotic interactions on, 271
  influenza virus infection, effect on interferon production, 942
D-Mannosamine, inhibition of staphylococcal adherence to iv catheters, 116
Measles, T-lymphocyte subsets, 1018
Meningitis
  due to cryptococci, treatment with flucytosine and ketoconazole, 584
  due to *H. influenzae* type b, association with HLA types, 373
  due to nontypable *H. influenzae*, 656
  due to *S. pneumoniae*, postantibiotic effect in treatment, 575
  due to *S. pneumoniae*, treatment with β-lactams, 568
  moxalactam for gram-negative bacillary infection, 562
Menstruation, effects on neutrophil function, 413
Microbial cultures, in lymph-node biopsy, 162
Milk immune transfer, role in lethal HSV neonatal infection in mice, 38
Minocycline resistance of *U. urealyticum*, 117
Monoclonal antibodies
  human, production from human lymphocytes and mouse myeloma cells, 43
  protection against streptococcal disease, 363
  to define surface antigens of *S. mansoni*, 227
Moore swabs for isolation of *S. typhi*, 640
Moxalactam
  and tobramycin, interactions in normal volunteers and patients with impaired renal function, 9
  for gram-negative bacillary meningitis, 562
Mucosal immunity of cholera, effect of B subunit vaccine, 884
Mumps, ELISA for, 810
Mycobacterium leprae glycolipid, IgM antibody to, 870
Myeloperoxidase system of PMNs, inactivation of *C. difficile* cytotoxin, 215
Myocarditis in relapsing fever, 1033

Neisseria gonorrhoeae
  characterization of LPS, 544
  effect of peptidoglycan fragments on fallopian tube, 378
  role of LPS in serum sensitivity, 175
Neisseria meningitidis, group Y infection, 1036
Neonatal enterocolitis, caused by *Campylobacter*, 874
Neonates, tissue netilmicin and gentamicin concentrations, 474
Nephrotoxicity of the gentamicin complex, 605
Netilmicin, tissue concentrations in neonates, 474
Neutrophil function, cyclical abnormalities during menstruation, 413
Nocardia asteroides in cervical osteomyelitis, 824
Nontypable *H. influenzae*, lack of capsule, 518
Nosocomial disease, plasmid markers for Legionnaires' disease, 251

Oligonucleotide mapping of Influenza A/Ann Arbor/6/60 *ts* mutants, 194
Opsonins in iv gammaglobulins, 511
Opsonization, failure of as a sign of lethal sepsis, 651
Osteomyelitis, cervical, caused by *N. asteroides*, 824
Otitis media, presence of interferon in ear, 480
Outer membrane proteins of *P. aeuginosa*, antibodies to in patients with cystic fibrosis, 220

Pandemic influenza viruses, origins of, 108
Paracoccidioidomycosis in rats, 821
Paratyphoid fever, diagnosis by duodenal string-capsule culture, 157
Parenteral nutrition, bloodstream infection with *C. parapsilosis*, 98
Penicillin and aztreonam, lack of cross-reactivity in penicillin-allergic subjects, 16
Peptidoglycan fragments of *N. gonorrhoeaea*, effect on fallopian tube, 378

Persistence of attenuated Junin virus, 1022
Perspective, rotaviral gastroenteritis, 663
Phagocytosis, effect of antibiotic and nucleoside uptake by PMNLs, 397
Pharmacological agents, low-dose, effects on *E. coli* enterotoxin, 280
Plaque-reduction analysis for mammalian and avian rotaviruses, 694
Plasma
  immune in treatment of Lassa fever, 420
  levels of aminoglycosides, association with gram-negative bacteremia, 443
  proteins and lipoproteins, interaction with amphotericin B, 986
Plasmid DNA from *S. aureus*, rapid procedure for extraction, 921
Plasmid-pattern analysis for *S. epidermidis*, 913
Plasmids
  antibiotic resistance in *S. typhi*, 652
  antibiotic selection and multiple resistance in streptococci, 74
  for epidemiology of *C. jejuni* infections, 279
  markers in nosocomial Legionnaires' disease, 251
Pneumococcal immunization, 817
Pneumocystis carinii
  and cytomegalovirus, coinfection, 643
  cultivation in lung-derived cell lines, 644
  origin of, 287
  pneumonia in renal transplant recipients, 143
Pneumonia
  due to *Legionella*, distribution of subgroups and species, 819
  due to *P. aeruginosa*, single vs. combination antibiotic therapy, 980
  experimental, due to *H. influenzae*, 728
Pneumonitis agent of mice, cellular immunity to, 630
Pneumonitis, chlamydial, serodiagnosis in infants, 598
Poliomyelitis, and HLA specificity, 285
Polymorphonuclear leukocytes
  effect of phagocytosis on antibiotic and nucleoside uptake, 397
  inhibition of chitin precursor inhibition, 404
  uptake of erythromycin, 714
Polymorphonuclear neutrophils, bactericidal action on bacterial filaments, 719
Polysaccharides of group B streptococci, role in virulence, 851
Polysaccharides of *H. influenzae*
  antibodies to, 1034
  vaccine, 950
Postantibiotic effect in treatment of meningitis, 575
Prostatic abscess, due to *C. albicans*, 282
Protease, granulocyte, role in cystic fibrosis, 523
Proteases of *Pseudomonas aeruginosa*, in vivo activity, 532
α_1-Proteinase inhibitor, role in C3-cleavage in pleural empyema, 935
Pseudomonas aeruginosa
  outer-membrane proteins in cystic fibrosis, 220
  pneumonia, single vs. combination therapy, 980
  proteases in vivo, 532
Pseudomonas elastase, role in cystic fibrosis, 523
Pulmonary clearance of *C. albicans*, 1020
Pulmonary infection with *A. strictum*, 653
Pyelonephritis, candidal, detection by phosphorous-31 NMR, 648

Rabies, raccoon, antigenic analysis of epizootic, 769
Rats, source of hemorrhagic fever with renal syndrome, 473
Readers' register
  AIDS and AIDS variants, 118
  Bleeding and β-lactam antibiotics, 118
  Enterococcal endocarditis, 118
Reinfection in patients with recurrent HSV infection, 645
Reinfection with VZV, 137
Renal
  function, effects on interactions of tobramycin and moxalactam, 9
  infection, genetic component in resistance, 483
  toxicity, gentamicin and tobramycin in pseudomonas endocarditis, 257
Renal-transplant recipients
  L. micdadei and *L. pneumophila* infection, 703
  P. carinii pneumonia, 143
  recurrent CMV infection, 277
Resistance
  drug, transfer in gram-negative bacteria, 320
  genetic, to trypanosomiasis, 311
Respiratory-tract infections, decrease in helper T cells, 123
RIA for HSV type-specific antibodies, 964
Ribavirin in treatment of Lassa fever, 420
Rickettsia rickettsii, growth in human vascular endothelial cells, 201
Rickettsial diseases of the Far East, 330
Risk factors, aminoglycosides and auditory toxicity, 23
RNA analysis of rotavirus propagation, 688
RNA patterns of human rotaviruses, 683
Rotaviral
  diarrhea, prevention by immunization with empty capsids, 434
  disease in children, 667
  gastroenteritis, recent developments, 663
Rotavirus
  capsids, use as vaccines, 434
  carriage, 667, 675
  detection by latex-agglutination, 1021
  human, RNA patterns in epidemics, 683
  propagation, RNA analysis, 688
  RNA pattern analysis during propagation, 688
  serological response to, 675
  shedding, 667
Rotaviruses, mammalian and avaian, serotypic analysis, 694
Rubella, antibody to, detection by latex-agglutination, 459

Salmonella typhi
  chronic carriers in Santiago, 124
  isolation from irrigation water, 640
  plasmids mediating drug resistance, 652
Salmonellosis, role of host factors, 878
Schistosoma mansoni, surface antigens defined by monoclonal antibodies, 227
Schistosomiasis
  treatment with trichlorfon, 998
  urinary, treatment with trichlorfon, 615

Sepsis, correlated with failure of opsonization, 651
Serological response to rotaviruses, 675
Serotypic analysis of rotaviruses, 694
Serratia marcescens as cause of thyroiditis, 281
Shigella sonnei vaccine, typhoid–*S. sonnei* vaccine safety and antigenicity, 133
Skin-test antigen of VZV, 501
Speciation polemic, 661
Sputum bacteriology in patients with cystic fibrosis, 283
Staphylococci, adherence to iv catheters, 116
Staphylococcus aureus
  caseinase- and bound coagulase-deficient mutants, 538
  extraction of plasmid DNA, 921
  laboratory test for antibiotic efficacy, 904
  resistance to β-lactam antibiotics, 894
Staphylococcus epidermidis, plasmid-pattern analysis, 913
Staphylococcus xylosus and endocarditis, 826
Statistics in the *Journal of Infectious Diseases*, 349
Steroids, role in *P. carinii* pneumonia in renal-transplant recipients, 143
Stool, isolation techniques for *C. jejuni*, 481
Streptococci
  conjugative plasmids and antibiotic resistance, 74
  group B, polysaccharides and virulence, 851
Streptococcus
  group A, suppression of reactivity to antigen, 841
  group B, protection against with hybridoma antibodies, 363
Streptococcus pneumoniae
  β-lactams for meningitis due to, 568
  serotypes isolated 1979–1982, 449
  vaccination in childhood, 861
Sulfamethoxazole and trimethoprim for listeria bacteremia and peritonitis, 820
Superoxide production, cyclical abnormalities during menstruation, 413
Suppression of cellular response to group A streptococci, 841
Surface antigens
  of *N. gonorrhoeae*, antibodies to in patients, 166
  of *N. meningiditis*, class-specific antibodies to, 387
  of *S. mansoni*, defined by monoclonal antibodies, 227
Synergy of anaerobes in sc abscesses, 924

T cells, helper, in recurrent respiratory tract infections, 123
T-cell subsets in measles, 1018
Tetanus from im injections, 659
Tetracycline-resistance genes in *Haemophilus* species, 1028
Therapy for mucosal candidiasis, 284
Thyroiditis caused by *S. marcescens*, 821
Tobramycin
  and moxalactam, interaction in normal volunteers and patients with impaired renal function, 9
  role in renal and auditory toxicity, 257
Toxic-shock syndrome
  antibodies to staphylococcal enterotoxin F, 103
  clindamycin suppression of exotoxin production, 471
  spread of *S. aureus*, 103
Toxin-blocking effects of B subunit of cholera toxin, 495
Toxins A and B of *C. difficile*, enzyme immunoassay for, 781
Toxocara canis infection, clinical and epidemiological studies, 591
Toxoplasma gondii
  immune response after infection, 234
  infection acquired by ingestion, 234
Transfusion-related AIDS, 1030
Transplacental
  transfer of immunity, role in lethal neonatal herpes simplex infection in mice, 38
  transmission of CMV, vaccination against, 355
Transplantation, marrow, recurrent HSV infection, 750
Trichlorfon
  for schistosomiasis, 615
  for schistosomiasis haematobium, 998
Trimethoprim and sulfamethoxazole for listeria bacteremia and peritonitis, 820
Trypanosomiasis, genetic resistance to, 311
Tuberculosis, association of HLA-DR and immunosuppression, 31
Typhoid fever
  diagnosis by duodenal string-capsule culture, 157
  traced to a continuing source, 553
Typhoid–*S. sonnei* vaccine, safety and antigenicity, 133

Uptake of antibiotics and nucleosides, effect of phagocytosis on, 397
Ureaplasma urealyticum
  cervical and placental colonization, 289
  differential counts in male patients, 657
  minocycline resistance, 117
Urinary tract infections with fimbriated *E. coli*, 835
Urine, detection of *B. fragilis* antigens, 929
Urologic patients, differential counts of *Ureaplasma urealyticum*, 657

Vaccination
  against transplacental CMV transmission, 355
  of the elderly with hepatitis B vaccine, 1019
Vaccine
  B subunit–whole cell for cholera, 1005
  Dengue type 2, reactogenicity and immunogenicity, 973
  HSV, to prevent encephalitis, 973
  influenza A/Ann Arbor/6/60 *ts* mutant, genetic stability, 194
  influenza A/Washington/897/80 (H3N2) cold-adapted reassortant, 814
  influenza A/California/10/78 (H1N1) cold-adapted reassortant, 735, 816
  rotavirus empty capsids, 434
  S. pneumoniae for children, 861
  topical for *C. trachomatis*, 439
  varicella for elderly patients, 647
  VZV, strain markers, 956
Vaginosis caused by motile, curved anaerobic rods, 801
Varicella-zoster
  vaccine
    for elderly patients, 647
    strain markers for, 956
  viral
    infection, treatment with po acyclovir, 478
    proteins, humoral immune response to, 741

virus
clinical reinfection with, 137, 1035
skin-test antigen, 501
Vascular endothelial cells for growth of *R. rickettsii*, 201
Vibrio cholerae, blocking toxin effect with B subunit, 495
Vibrio vulnificus, clinical and epidemiological study, 558
Vidarabine
and acyclovir for HSV in vivo and in vitro, 757
therapy for herpes simplex in immunocompromised host, 1
Viral diagnosis, rapid, 299
Virulence of group B streptococci, role of polysaccharides, 851

Yersinia pseudotuberculosis, outbreak of unknown origin, 245

Zoonoses in birds, 123
